WSL Caravan Wheel Safety Bolt

The WSL Caravan Wheel Safety Bolt is the first bespoke wheel bolt designed for the caravan industry. It represents a huge leap forward in technical development on a component that has stood still for decades.

Features:

- Bespoke floating collar – specifically designed for the caravan industry
- Security/locking wheel bolt head
- High performance anti-friction and anti-corrosion 2-part surface finish

Benefits:

- Huge increase in clamping force
- Increase in bolt elongation (minimum 3.25 times)
- Increase in grip length (2.4 times)
- Prevents wheel theft
- Prevents bolt loosening and wheel detachment
- Corrosion resistance to 840 hours salt spray

WSL working in partnership with TyreSafe to promote Tyre Safety in the Caravan Industry
